

R E M A R K S

This amendment eliminates multiple dependency in the claims and puts the claims in better U.S. format. No new matter is introduced by this amendment.

Attached hereto is a marked-up version of the changes made to the claims by the current amendment. The attached page is captioned "Version With Markings to Show Changes Made".

Respectfully submitted,

VERSION WITH MARKINGS TO SHOW CHANGES MADE

3. (Amended) A compensating system as claimed in claim 1 ~~or claim 2~~, wherein the vehicle has four wheels, all of which are inked by the drive system.
5. (Amended) A compensating system as claimed in ~~any one of claims 1 to 4~~ claim 1, wherein the first rotatable means is a cylindrical drum, as may be the second rotatable means.
6. (Amended) A compensating system as claimed in ~~any one of claims 1 to 5~~ claim 1, wherein the central shaft extends upwardly beyond the second rotatable means.
7. (Amended) A compensating means as claimed in ~~any one of claims 1 to 6~~ claim 1, wherein the connecting means include a pin attached to the first rotatable means and extending upwardly through an elongate, arcuate slot in the second rotatable means.
9. (Amended) A compensating system as claimed in ~~any one of claims 1 to 8~~ claim 1, wherein there is included a biasing system including two generally parallel and spaced apart arms pivotally attached to the second rotatable means at one side thereof and extending beyond the opposite side, there being provided a spring operatively connecting the two arms, the central shaft and the pin being located between and acting upon and being acted upon the two arms.
